MOELLER STONE CARE

PRODUCT SPECIFICATION

HMK® R169 - STONE CLEANER - *spezial*

- **Special low odor cleaner for all acid-resistant natural stones.**
 - **Also suitable for use on polished surfaces.**
 - **Removes cement residue and dried building dirt.**
- **Contains rust inhibitors, especially developed for hard stones.**

HMK® R169 is a special low odor concentrated cleaner for removing cement and mortar residue, lime scale, rust and dried in building dirt from all acid-resistant natural stones. For internal and external use. HMK® R169 is especially suited for cleaning polished and hard stone. The rust inhibitors contained in HMK® R169 make it extremely suitable for the cleaning of areas liable to rust staining. Deposits left from abrasives used in polishing/honing the surface are also removed.

Instructions: Ensure adjacent surfaces are protected. If under floor heating exists, switch it off and allow the surface to cool. Apply HMK® R169 on a well wetted surface with a scrubbing brush, broom or a suitable pad, diluted with clean water (1:2 to 1:10) depending upon the intensity of the contamination. Scrub into the surface and leave it to work but do not allow to dry. After a suitable period of time scrub again and remove the residue. After treatment scrub the treated area using HMK® R155 Intensive Cleaner - acid free diluted approx 1:20 with clean water and remove the residue. Rinse the surface thoroughly with clear water to complete the treatment. Repeat the treatment for highly contaminated areas.

When using a wet vacuum we recommend that you add to the water HMK® Z702 Defoamer to regulate the amount of foam.

Important: Do not apply in direct sunlight. Acid sensitive surfaces, polished and fine honed marble, limestone, terrazzo, metals, plastics etc... will be damaged by contact with HMK® R169.

Coverage: About 10-60m²/litre.

Warning: Chemical product. Contains surfactants, acids, auxiliary and control agents. Avoid eye/skin contact. If exposed, wash/flush with water, and seek medical attention. At all times wear suitable protective clothing (gloves, masks, boots, etc...). Keep out of the reach of children. See Material Safety Data Sheet for more detailed information.

Packaging: 12 x 1 litre bottles/box; 2 x 5 litre cans/box; 2 x 10 litre cans/box.

Storage: Store in cool place. Keep lid tightly closed.

Testing: Always test the product in an inconspicuous area to evaluate suitability, coverage and performance. Do not use the product in temperatures below 12° and above 25°C.

Limitation of liability: The liability of HMK® Moeller Stone Care for defective products and any claims for damages whatsoever is limited to the purchase price of the products. HMK® Moeller Stone Care shall not be liable for any consequential damages. No other warranty or representation is made or implied.
