MOELLER STONE CARE

PRODUCT SPECIFICATION

HMK® P311 - COMPOSITE-QUARTZ CARE CLEANER

- **Special care and maintenance treatment for all brushed, polished or honed composite quartz surfaces.**
- **Cleans and maintains the surface and supports the existing impregnation in one easy action.**
 - **For daily use.**

HMK® P311 is a mild cleaning concentrate for daily cleaning and maintenance. Highly active ingredients quickly and thoroughly clean and maintain all composite quartz surfaces. Suitable for use on brushed, polished, honed, satin and „leather“ finishes. Natural ingredients care for and optimize the color and texture of the material. HMK® P311 is designed specifically to bring a brilliant finish to composite quartz surfaces. With regular use, surfaces become more resistant to stains and easier to clean.

Instructions: For regular cleaning and maintenance add approx 25-50 ml for every 10 liters of clean water and mop the surface as usual wringing the mop regularly. When the water becomes dirty replace it with the same solution of HMK® P311 and clean water. Do not re-mop or rinse areas once cleaned. Use HMK® P311 daily in commercial areas and once or twice a week in residential areas. For larger areas HMK® P311 can be applied and buffed using a floor machine with a white/tan polyester pad at 900-1500 rpm.

Coverage: About 1.500 to 2.000 m² per litre on commercial installations depending on level of dirt.

Warning: Chemical product. Keep out of the reach of children.

Packaging: 12 x 1 litre bottles/box

Storage: Store in a cool place.

Testing: Always test the product in an inconspicuous area to evaluate suitability, coverage and performance. Do not use the product in temperatures below 12° and above 25°C.

Limitation of liability: The liability of HMK® Moeller Stone Care for defective products and any claims for damages whatsoever is limited to the purchase price of the products. HMK® Moeller Stone Care shall not be liable for any consequential damages. No other warranty or representation is made or implied.
