MOELLER STONE CARE

PRODUCT SPECIFICATION

HMK® P323 - POLISH PRESERVER - no rinse

- **Self-shining care emulsion to refresh worn and dulled natural and artificial stone surfaces.**
- **Brings a brilliant silky shine to surfaces and reduces the penetration of water and dirt.**
 - **For interior use only.**

HMK® P323 is a concentrated emulsion that refreshes worn and dulled natural and artificial stone surfaces. A silky shine is developed without the need for polishing. The protective film that develops with regular use increases water and dirt resistance and makes textured and rough surfaces easier to clean. For interior use only. Do not use in wet areas such as shower cabins.

Instructions: Ensure that underfloor heating is switched off and the surface is cool. Clean the surface thoroughly and let it dry (max residual moisture of 2-4%). Shake well before use. For first time application, dilute HMK® P323 1:10 with clean water and apply thinly and evenly using a clean non-fraying cloth, sponge or washmop. For very absorbent surfaces, use a more concentrated mixture.

For regular maintenance occasionally add 100-200ml of HMK® P323 for every 10 liters of wash water and mop 5 to 10m² at a time wringing the mop frequently in same bucket of solution. Do not re-mop or rinse areas once cleaned. Replace the solution when it becomes dirty. High traffic areas may require more frequent treatments and a more concentrated mixture.

Important: Do not walk on the treated area until dry, about 50-60 minutes.

Buff to a higher shine using a regular floor machine (900-1500 rpm) with a white, tan or red polyester pad.

Use HMK® P324 Liquid Stone Soap - no rinse for daily cleaning alternated with HMK® P323 as required.

Use HMK® R155 Intensive Cleaner - acid free to clean surface thoroughly before first application and to periodically remove the HMK® P323 film and refresh the surface.

Coverage: About 150-250m² per litre.

Warning: Chemical product. Keep out of the reach of children and safe from frost.

Packaging: 12 x 1 litre bottles/box; 2 x 5 litre cans/box; 2 x 10 litre cans/box.

Storage: Store in a cool place. Do not allow to freeze.

Testing: Always test the product in an inconspicuous area to evaluate suitability, coverage and performance. Do not use the product in temperatures below 12° and above 25°C.

Limitation of liability: The liability of HMK® Moeller Stone Care for defective products and any claims for damages whatsoever is limited to the purchase price of the products. HMK® Moeller Stone Care shall not be liable for any consequential damages. No other warranty or representation is made or implied.
